3. In the event [] does not consent to lend us
these experimental machines, [] has agreed to send us a com-
plete circuit out of his first manufacturing run. He claims to have an
order for 100 machines and states that he is putting through a run of
108, and that he will sell me two of that run in any event. These, we
would have to pay for.

5. I brought back some photographs of the machine which I am
delivering to Mr. [] AFSA.
